San Mateo County Home Values since 2016

Median Dollar per Square Foot Values, 3-Month Rolling

Median $/sq.ft. is that value at which half the sales occurred for more and half for less. It is a general statistic that conceals a wide range of values in the underlying sales, and is often subject to seasonal fluctuations. Values vary widely between communities.

Each column reflects 3 months sales reported to NorCal MLS Alliance, per Infosparks. Last month's price may change due to late-reported sales. Analysis may contain errors and subject to revision. All numbers approximate.
